PROFILE

I am a full stack developer, I am good with React and React Native. I have extensive experience in Laravel, Node JS, WordPress Plugin and Theme development. I have 5 years experience in web app development, web service, API building, various payment gateway integration, SMS based app building, handling big data. I was related with different companies and many freelance based work. Now Looking for opportunities in developing full stack web applications using the best and latest technologies applicable.

EXPERIENCE

Vyllage LLC , Portland, Oregon Area , USA — June 2015 - November 2015

I used to do React - Reflux based work, It was a platform that is related to education sector. I solved many architectural problem there, the journey with them was really awesome.

Noobis Inc, Dhaka,Bangladesh — July 2012 - June 2015

I was related with many noobis projects, most of the tasks was related with Laravel and Angular JS, solved pre rendering issues there and many challenging stuff, worked with many payment gateways , WordPress theme and WordPress Plugin development , API and large scale e-commerce development.
